Steel High Strength Low Profile Hopper 1/2 Cubic Yard 6000 Lb. Capacity Blue

MODEL H-50-HS

Fork Truck Attachments / High Strength Self-Dumping Steel Hoppers

PRODUCT OVERVIEW

A Low Profile self-dumping steel Hopper features a low profile design essential for convenient loading and unloading. Dumping with a fork truck is quick and simple and by using the cable mechanism, unloading is quick and efficient. When finished, and lowered to the ground, the unit returns to an upright and locked position. The included safety restraint/chain must be securely attached to the lift truck carriage without slack. Never stack hoppers more than 3 high. A baked in powder-coat finish diminishes scraps and minimizes abrasion, while adding toughness.

KEY FEATURES

- Hopper is able to be dumped from seat of fork truck
- High strength steel for added lifting support
- Fork pockets are capped on the end to allow for dumping
- Perfect for fitting in low height areas
