Polycarbonate LED Loading Dock Guide Light Set in 120 Voltage

MODEL DGL-LED-Y-AC

Loading Dock Equipment / LED Loading Dock Guide Light Sets

PRODUCT OVERVIEW

Provides drivers with visual target to align a truck trailer with the dock door. The LED guide light is especially useful in low-light environments like enclosed dock bays, but it's bright enough to improve visibility of the dock opening in daylight. The light may also be installed indoors to mark door openings for forklift operators and other warehouse personnel. It's a versatile safety product, at a low price!

KEY FEATURES

- High strength construction to reduce impairment during adverse conditions
- Bright colored outer surface creates highly visible light
- Great for both indoor and outdoor use
- Easy installation on any vertical surface
