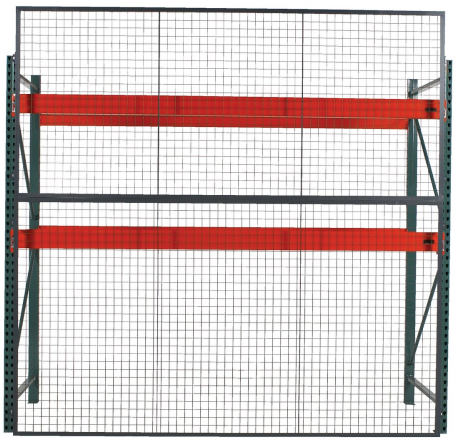
Steel Welded Wire Panel 144 In. x 1-1/4 In. x 48 In. Gray

MODEL RBG-124

Storage Solutions / Back Guards for Pallet Rack



PRODUCT OVERVIEW

The RackBack panel bolts directly to your existing pallet rack uprights creating a sturdy barrier between inventory and the ground below. Durable all welded, angle frame panels give constant protection from dangerous spills; protecting personnel while containing inventory. The unit is competitively priced with netting style backing, easy to install and protects employees by making sure nothing can fall when pushed by a lift truck or if a pallet breaks. Panels can be stacked one on top of the other to top of rack system. The "above the top" mounting allows panels to extend above top rack beam.

KEY FEATURES

- The RackBack panel bolts directly to your existing pallet rack uprights creating a sturdy barrier
- Between inventory and dangerous spills in order to protect personnel and contain inventory
- Netting style backing is easy to install and makes sure nothing can fall if a pallet breaks
- "Above the top" mounting allows panels to extend above top rack beam
